ACCESSORIES

To expand, complete or improve the installation, Aiten Data also has all the necessary accessories for its electronic, computer or telecommunications equipment, whether basic systems or complex data centers.

Aiten data also introduces in its catalog a digital thermostat of 1U of height enrackable in 19" cabinets. It controls the internal temperature of the rack cabinet and activates the fans when necessary. This is important, since the fans are not working continuously and thus, we extend the life of these, while reducing the noise.

It has a digital display where the temperature can be controlled, an on-off switch, 220V 50HZ electrical connection, European type plug and temperature sensors.

It is manufactured on cold-rolled steel and finished in black anti-rust paint and powder coated and has side anchors for easy fixing in the rack cabinets.

MAIN FEATURES

- 1.2 mm cold-rolled steel.
- Powder coating.
- Digital screen.
- Switch.
- Electrical connection 220V 50HZ.
- European plug.
- Temperature sensor.

STANDARDS COMPLIANCE

Aiten Data accessories are under standards: ANSI / EIA RS-310-D; IEC297-2; DIN 41494; PART1; DIN 41494; PART7; ETSI; EC; ROHS; ISO 9001.
